## Points to Remember

- 1: When you are choosing venues for your formal photos always give thought to a dry warm venue should the weather turn against you. We carry a selection of Wedding umbrellas if you do decide to brave the damp.
- 2: Allow as much time as you can for the formal photos. Great photos take time. Wherever possible allow two hours for the session and take into account the travelling time to get there.
- 3: We will provide you with a bottle of bubbly as our appreciation of being invited to your special day. We will also bring any props required for the shoot .
- 4: The most important element of the day is for you to enjoy yourselves. We will make sure that we put you totally at ease. You will be surprised how much fun photo sessions can be.
- 5: If there are any types of photo you particularly want make sure you let us know.
- 6: There is a move back to Black and White portraits. If you require Black and White let us know. There is no extra charge.
- 7: When we are taking photos of the Bride and Groom with members of the family and friends make sure that you don't forget anyone, make a list of all of them and then put someone in charge of getting those people on the list to the photo location quickly and without any fuss. So much of your precious day can be wasted waiting for family members to show for their photos
- 8: Remember. It is as important to us as it is to you that your photographic memories capture the atmosphere and the happiness of the day. At any time you have any concerns, ideas or you want to make any changes to the planned package you have booked, we will always welcome your phone call or visit.
