## Thank you for the enquiry regarding your Portrait Photography

We have been taking family portraits for years and we love spending time to get the perfect portrait. Because we do all our own photographic printing and picture framing we guarantee that the results you get will be exactly what you want, with frame and matboard colours that fit with your homes décor.

If its photos of the children you want , we love spending time with the kids and we offer to you a guarantee that if the kids aren't smiling just the way you want them to, we will retake the photos for free.

Family groups, individual portraits, photos of you when you are carrying your baby, or photos of your pet, we will spend as long as it takes to get the perfect shots either at a venue of your choice or in our new studios

We love people and we love the challenge of getting "The Perfect Shot" so don't leave it until all the family has grown up...talk to us today about your portrait photos .....

*"We love the time we spend with you and your family "*

## Tips for a great portrait session

Don't worry about the kids "performing" for the cameras. We love working with kids and on the day, if we can't make them smile or they're not in the mood for having photos taken, we will simply reschedule the shoot. There is no extra charge for this.

All family members, and especially the children, should be well rested, well fed and had a good night's sleep.

For young children's portraits, avoid scheduling your appointment at your child's usual sleep time.

Some members of your family will not always be keen on having their portraits done, don't worry about it, you make the booking and leave the rest to us.
